Subject: Re: EPA/FMCV Settlement Discussions re: FMCV Public Water System

Mr. Rodriguez,

I appreciate your understanding and clarity on the FMCV/AOC status. Although I do have a concern on the Shungopavi AOC status. I know this is not relevant to FMCV, but I touch basis w/ Ms. Maxine Wadsworth (Shungopavi CSA/PWS) and Mr. Vernon Mansfield (distant relative) on this very issue. When I asked if the Shungopavi PWS staff, had already engaged EPA Enf. 9 individually, since the last "term sheet" meeting in late January (which Mr. Vernon Mansfield attended, as well as FMCV staff), both confirmed that they have not, w/ exception to phone discussions w/ Hillary Hect on another PWS matter. This in-person meeting was held today at 2pm today at the Shungopavi CSA site.

If the Shungopavi PWS is in current bilateral negotiations, as inferred in a previous email, would Ms. Thin Elk be the one speaking on their behalf? I ask due to the discussion I just had w/ the Shungopavi PWS staff, which again, when asked if their PWS is in current discussions w/ you folks, the answer given was "no"? Don't mean to make issue w/ EPA Enf. 9, but it is vital to FMCV's PWS compliance to be well informed on all matters pertaining to the HAMP.

Mr. Sidney has set a time for our 3/12/18 phone discussion, so what stage of the AOC would the FMCV PWS#400106 be designated in? Would FMCV still be considered in the "term sheet" pre-AOC discussion stage? That is what I am assuming FMCV will resume discussion at? Sorry for any inconveniences my inquiries may cause, but FMCV thanks you for your time and efforts.

Mr. Mansfield,

Per our January 30, 2018 conference call with the Tribe and village representatives, our team stated that we would commence reaching out individually to each of the villages to discuss the terms of settlement. As I noted yesterday, we have already begun this process with the other villages and EPA would like to meet with FMCV. Hopi Tribe representatives will not be part of this call, nor do we plan to invite them. EPA would first like to discuss settlement directly with FMCV representatives. We look forward to hearing back from your office on a time when we can meet this coming Monday. Thank you.

Mr. Rodriguez,

Jeff Mansfield here, I apologize for the lack of clarification on FMCV's part (PWS#400106). I will definitely inform Mr. Sidney immediately and a confirmation will soon follow.

From what I've understood Mr. Rodriguez, since FMCV has signed onto the HAMP alternative (11/7/17) to remedy the 12+yrs non-compliant status of the PWS#400106, it was agreed upon between FMCV and the General Counsel of the Tribe, Mrs. Thin-Elk, that Mrs. Thin-Elk would be the Primary point of contact/POC in all matter pertaining to EPA DW9 and EPA Enforcement 9 as well. This is what FMCV has understood, but I reassure you, that FMCV is more than willing to comply with all directives issued by EPA Enforcement 9.

The last interaction FMCV has had, in regards to the AOC process was the term sheet stage, which was some time ago w/ the Tribe and other affected PWS (2nd Mesa). It was concluded at that time, that all PWSs would coordinate w/ EPA DW/EPA Enforcement 9 collectively, but on an individual basis to discuss mutual (with exception of mandatory terms) provisions of the "term sheet".

So with that said, are the other PWSs already in bilateral talks w/ you folks? If so, we have not been informed as far as I know, but like I previously stated, FMCV is ready to begin bilateral discussions.

I intend this reply to be taken as a statement of fact to FMCV's circumstance, not an excuse for meeting our PWS obligations and as always, Mr. Ivan Sidney Sr. will be the primary point of contact for FMCV. Thank you for your notification, and we shall have a definite confirmation time for Monday March 12. 2018.

Mr. Sidney,

EPA remains interested in entering into an administrative order on consent (AOC) with FMCV and the Hopi Tribe to address ongoing violations of the Safe Drinking Water Act. Currently, we are entering into settlement discussions with other Hopi villages and hopefully we can meet with FMCV in the near future to do the same. Hillary Hecht of my staff has made several attempts (January 31, 2018 email and February 7 and 21, 2018 phone conversations) to schedule the settlement discussions and thus far we have been unsuccessful in arranging a time and date to meet.

We would like to schedule a one-hour formal call between EPA and FMCV representatives for Monday, March 12, any time between 9:00 am to noon. Please let me know what time works best for your office and we'll plan to call you on Monday at that time. Thank you and we look forward to speaking with you soon.
